

1100 Series Suburban Fixed Headboard

Fits all Suburban Tilt Slide body models

KEY ADVANTAGES

- More clearance above the body when working in confined spaces
- The body does not need to be built to the maximum chassis length, as it can be extended when needed
- When fitted to lift-lazy-axle cab/chassis trucks, the body can be extended to the rear while travelling, allowing longer loads to be carried
- The body can be extended to the rear to help adjust load weight distribution across the axles

VERSATILE FIT & EXTENDABLE BODY

Compatibility: All models

Clearance: Improved overhead

Extension: Rearward travel

STANDARD FEATURES

- All headboard styles can be fitted
- Heavy-duty guides prevent the body from lifting in the forward position
- Air body lock fitted to the tilt subframe, enabling the vehicle to be driven with the body extended
- Floor-mounted winch moves with the body
- Work lights fitted beside the winch
- Safety-chain mounts fitted to the floor
- Recessed floor tool trays provide improved clearance at the front
- All lights fitted to the headboard
- Pull-out steps fitted beneath the floor
- Extendable rear lightboard fitted to conform with RTA requirements
